

# Concept to Completion...

T.M. Browne offers a total construction service from start to finish

T.M. Browne is one of the most respected names in the construction and building maintenance business, not least because its extensive in-house resources enables it to offer a true all-in-one service – from planning and design to decorating and finishing touches. The current development on Priory Road in North Wootton (above) is a perfect example of the first-class workmanship, high standards and attention to detail that's at the heart of the family-run business.

Having won the tender from a local housing association, T.M. Browne started by demolishing four 'Airey' homes and liaising with the architect on a striking new development of two- and three-bedroom houses and flats.

From the groundworks to the mechanical, plumbing and electrical work, T.M. Browne brought the project to a successful conclusion at the start of the year and has now started on the nine properties that will form the second phase of the development (just visible at the top left of the image above).

Whether you're looking at a new build or a restoration project, a single extension or a multi-property development, you can rely on T.M. Browne to build quality solutions, to build responsibly with the

environment in mind, and to build to the highest standards of health and safety.

Above all, T.M. Browne builds trust and long-term relationships with customers, working everywhere from King's Lynn to Great Yarmouth, from Norwich to Cambridge – and even further afield.

For over 30 years T.M. Browne has been caring for people and properties – so to discover how we can bring your grand design to life (or for information on our property) maintenance services, please contact us using the details below.
